

The Centec Group

Centec is a privately owned group of companies. We design and manufacture automated process skids for efficient and reliable production of pasteurized, ESL and UHT milk. Units for milk standardization, systems for concentration and deaeration, flash pasteurizers and blending skids, carbonating and CIP units – Centec equipment is largely used for manufacturing of cream, butter and many fermented dairy products (e.g. yogurt, kefir, laban). Centec technology includes a range of high precision process sensors for accurately measuring critical product properties such as milk fat content, O₂ and CO₂. The largest dairy groups in the world are among our key customers.

Best of Technology. Centec.

Product Overview

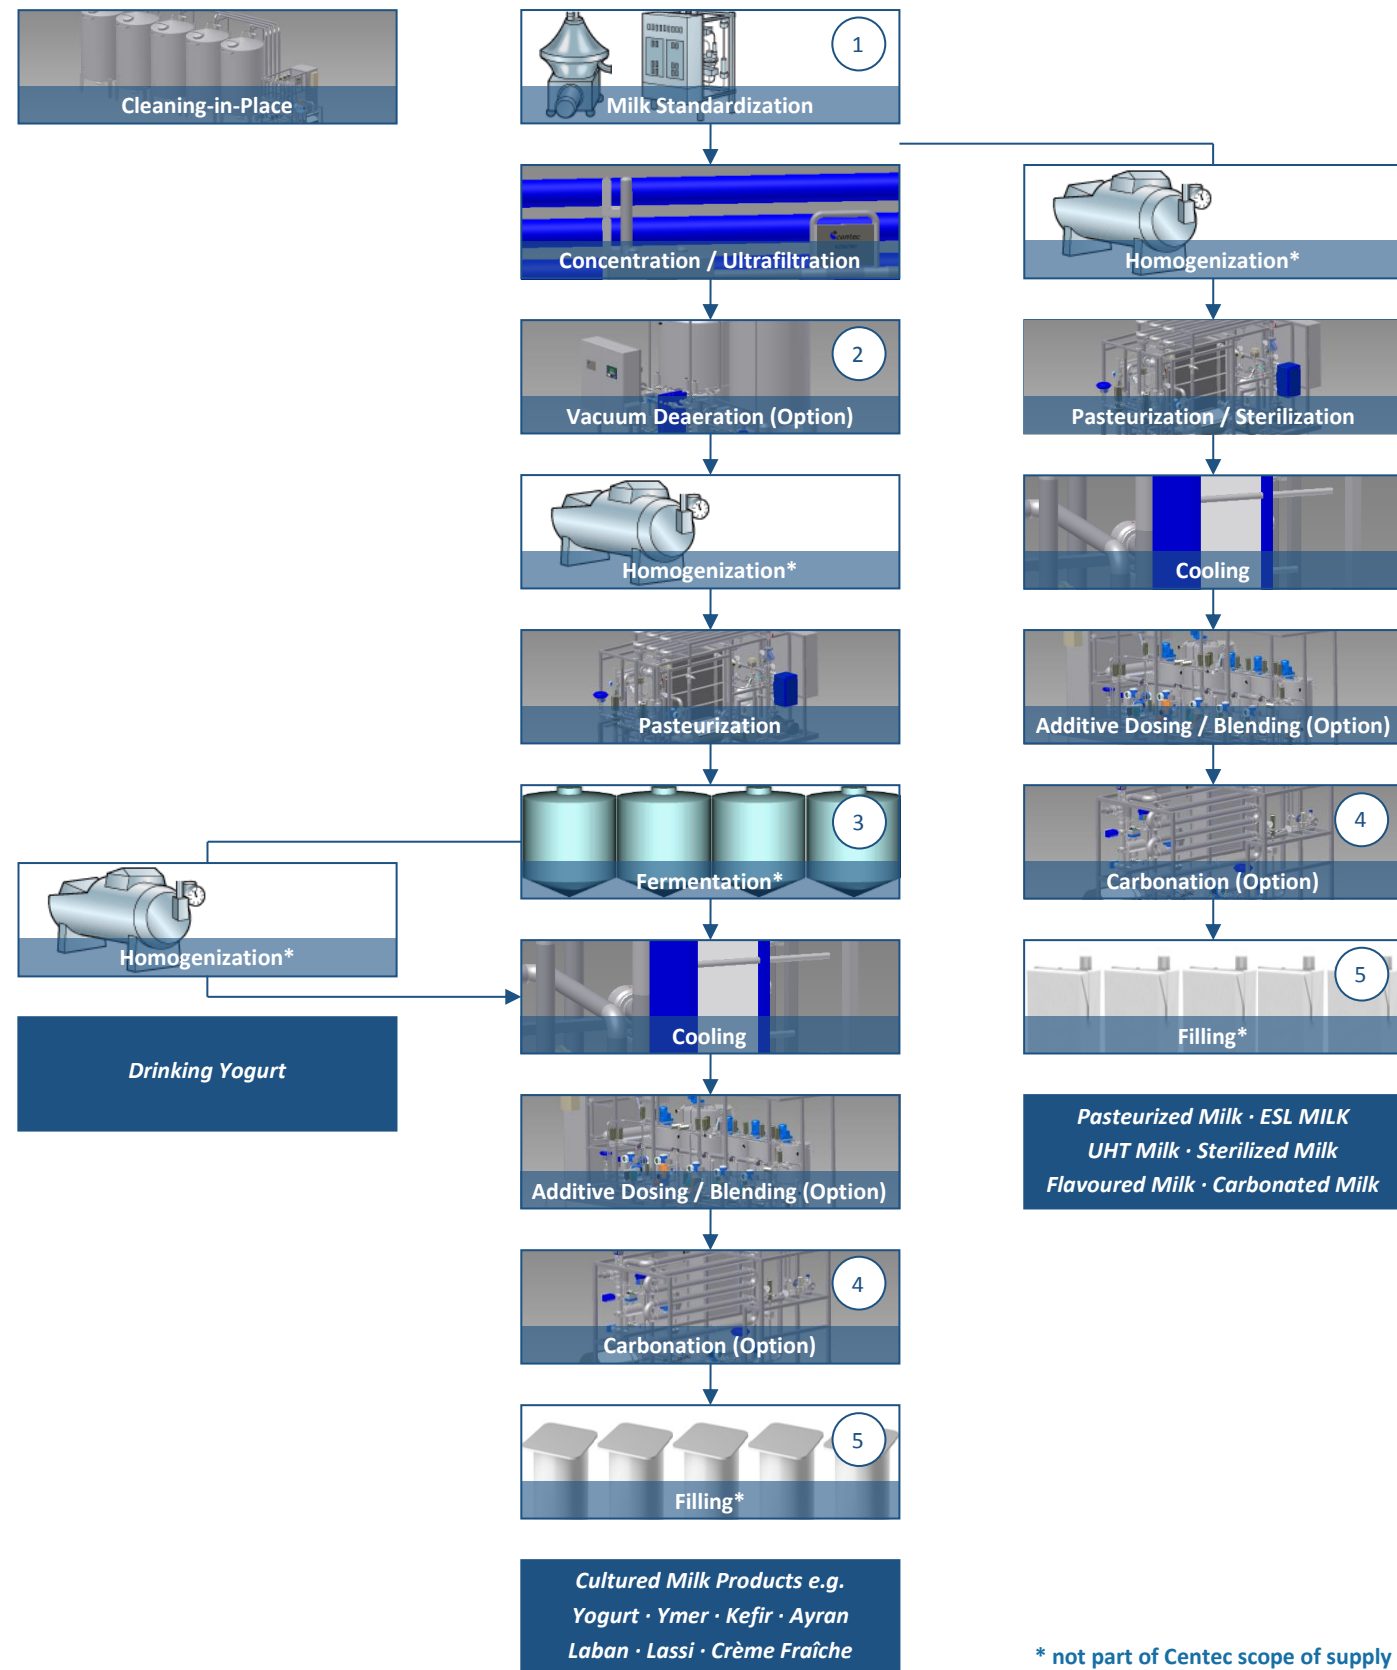

**Process Equipment
for the Dairy**

Centec Dairy Systems

Automated
process skids
and high precision
sensors from a
single source.
Centec.

Centec Units in the Dairy

Centec Sensors in the Dairy

- 1 Fat measurement during standardization (RHOTEC)
- 2 O₂ measurement during deaeration (OXYTRANS)
- 3 Measurement of conversion of lactose to lactic acid during fermentation (RHOTEC)
- 4 CO₂ measurement during carbonation (CARBOTEC)
- 5 Density measurement before filling (RHOTEC)

The Dairy Technology Company. Centec.
